Lee Read Jewelers

industrial | boise idaho

Lee Read Jewelers located in Meridian, Idaho, was completed in the spring of 2000. Larry and Nelda Read set high standards for this specialty retail store. Combining several small outlets dispersed throughout the Treasure Valley, the new facility boasts a 4,800-sq. ft. showroom with custom-made cherry veneer display cases and wall paneling. The new store offers a room specifically designed to amuse children and an area for viewing television, complete with La-Z-Boy recliners for “not so interested” male shoppers. The concept of one large regional store has paid off and business is better than ever for the Reads. This store is easily viewed from Interstate 84.
